Paul Skelton, Past Pres	CAROLINA PROC CTRL

The challenge of creating and maintaining a sustainable environment is probably one of the most pressing issues facing the Metal Finishing Industry today. With constant changes in governmental environmental requirements to growing your business and prospering in an unstable economic environment: Get your answers to both at the 2nd Annual Technical Conference that will keep you a step ahead of your competitors. The NASF/AESF Palmetto Branch is proud to support our area with top presenters in the environmental and technical process fields that will be able to discuss and answer all your environmental and process questions, not just today's requirements, but future topics that could determine if you will still be able to operate.

Golf in Beautiful Myrtle Beach

There will be a golf outing Saturday, September 18th, at Wicked Stick Golf Links in Myrtle Beach, SC. This is a John Daly "Grip it and Rip it" Signature Course. A stunning Links course that features dunes-like mounds and "Daly" Tees that will challenge even the longest hitters. Four-man scramble (Captains Choice), choose your own foursome. Shotgun start at 8:30 a.m.

"PROSPERING IN TODAY'S CHALLENGING ENVIRONMENT: Environmental and Process Solutions"
